APS Continues to Support the Fight Against Veteran Homelessness

The Veterans Furniture Center (VFC) is honored to have the ongoing support of APS. 100% of their donation will go toward purchasing the furniture and household goods our transitioning veterans so desperately need to start a new life and stay off the streets. During this unusual time, our homeless veterans are especially vulnerable to the ravages of COVID-19. It is essential to get them off the streets and safely into permanent housing. The support of APS will help the ongoing success of the mission of the VFC.

The VFC

The Veterans Furniture Center is a veteran run, volunteer-based, 501(c)(3) dedicated to assisting formerly homeless veterans' transition to permanent housing by providing them, free of charge, the furniture and household goods they need to establish a home and successfully return to society. The VFC focus is on transitioning veterans who are moving into permanent housing under the HUD-VASH program.

While the VA does an outstanding job providing counseling, healthcare, and other services, and transitioning these homeless veterans into subsidized housing, providing them safe shelter, it lacks the authority and budget to provide furniture or necessary household goods. By providing free furniture and household goods, the VFC fills that "critical gap." When the VFC volunteers deliver furniture and household goods, they turn that shelter into a home, giving the destitute veteran hope for the future and a new lease on life.

APS

Arizona Public Service is the largest utility in Arizona serving nearly 1.3 million Arizona homes and businesses. APS supports the community through educational programs, in-kind donations, volunteerism, and community impact grants.

The Veterans Furniture Center is pleased to have the ongoing financial and volunteer support of APS.
